Installation Guidelines

Order of Assembly

- Check the bath and dimensions are correct and no damage as been caused in transit.
- Check accessories. Do you have the cradles?
- Please turn the bath upside down with the bottom facing upwards exposing the four felt pads, placing the bath on a dust sheet.
- Put the cradles on the bottom of the bath.
- Pull back the felt exposing the cradle lugs.
- Pull back the cradle lugs and hook the strap into the cradle lugs.
- Fasten the cradles by tightening the nuts on the cradle. When nut snaps off, cradle is at its correct tightness.
- Fix the adjustable feet to even height.
- Carefully turn the bath back around and level it out.
- Fasten the locking nuts.
- Secure the bath with wall bracket or batten (not provided).
- Join the waste and overflow fittings and connect them.
- Then earth the bath and any metal waste fittings according to local regulations.
