**Fixings supplied****Maintenance/Care Instructions**

The glazed finish of your sanitary ware should be cleaned after use by applying a little cream type cleaner. Apply using a sponge or damp cloth and rinse thoroughly with clean water. Cleaners containing abrasive materials should be avoided.

**Installation Instructions**

Fired Earth does not supply installation instructions with this product but strongly suggest that the product is fitted by a professional installer.

Fired Earth recommends:

Vitreous China products are extremely hard, non porous but also brittle and therefore should not be put under stress during installation. Maida Vale Bathrooms WC Pans & Cisterns flush at 6L in compliance with European requirements, and our cisterns and pans are carefully balanced to provide the best possible flush. All of our cisterns are priced to include the flush fittings, levers and flush pipes. These have been carefully selected and tested and therefore we are unable to accept any responsibility for poor or non flushing situations where these items have been changed or fitted incorrectly.

**Fixings supplied  
Insulation seal**

To optimize the fixing at wall of sanitaryware, apply the self-sticking seal on its back as shown in the picture.

**Functions:**

- It insulates the sanitaryware avoiding its direct contact with the covering and compensates the deviation of the tiles to the piece.
- During the assembling it reduces the possibility to damage, to split or to break both the sanitaryware and the covering.
- It reduces the noise of the flux heard through the wall due to the flowing of the water.
- It reduces the formation of condensation on sanitaryware surface when installed on external and not insulated walls.

**Protection Features:**

- Compression resistant.
- Light, flexible, elastic.
- Completely waterproof.
- Handy and easy to assemble.
- Chemically inert.
- No subject to putrescence.
- Anti-mildews, insects, roots etc..
- Very good acoustic and thermic insulation.
- Ecologically neutral and toxicologically inert
- Resistant to chemical agents normally contained into detergents, acetones, diluted acids and salt water.
