Maintenance/Care Instructions

The glazed finish of your sanitary ware should be cleaned after use by applying a little cream type cleaner. Apply using a sponge or damp cloth and rinse thoroughly with clean water. Cleaners containing abrasive materials should be avoided.

Installation Instructions

Fired Earth does not supply installation instructions with this product but strongly suggest that the product is fitted by a professional installer.

Fired Earth recommends:

Vitreous China products are extremely hard, non porous but also brittle and therefore should not be put under stress during installation. All Imperial Bathrooms WC Pans & Cisterns flush at 6L in compliance with European requirements, and our cisterns and pans are carefully balanced to provide the best possible flush. All of our cisterns are priced to include the flush fittings, levers and flush pipes. These have been carefully selected and tested and therefore we are unable to accept any responsibility for poor or non flushing situations where these items have been changed or fitted incorrectly.
